

# Fortgeschrittenen-Programm ab 2012 (Intermediate A+ Klasse)

Der nachfolgende Dive-Pool beschreibt das neue Fortgeschrittenen-Programm als Erweiterung des Intermediate-Programms aus dem Vorjahr.

**Die Fortgeschrittenen-Klasse (Intermediate A+ Klasse) tritt die Nachfolge der bisherigen Intermediate-Klasse an, die nicht weiter geführt wird.**

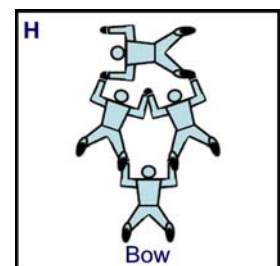

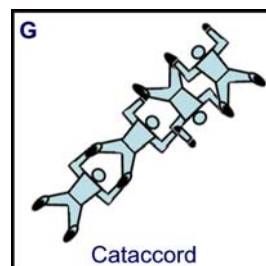

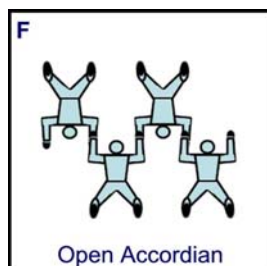

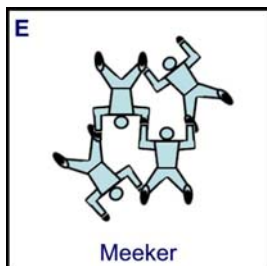

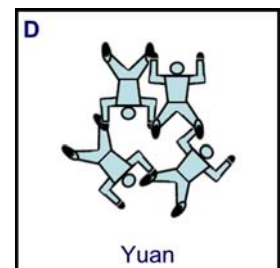

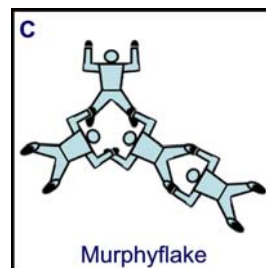

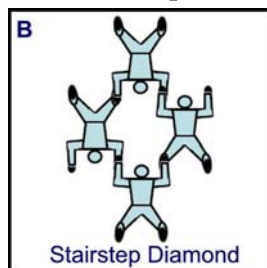

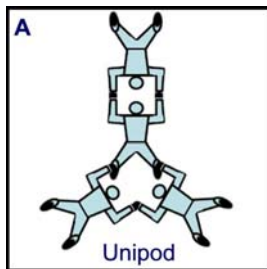

Ziel der Änderung ist es, den Abstand zur Einsteigerklasse etwas deutlicher zu machen und dafür den Abstand von der bisherigen Intermediate-Klasse zur offenen Klasse zu verringern, um den Fortgeschrittenen A+ Teams den Auf- und Umstieg zu erleichtern.

## Regeln:

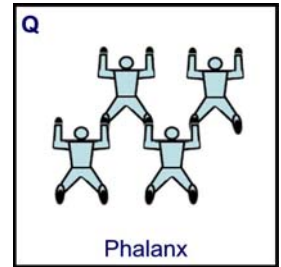

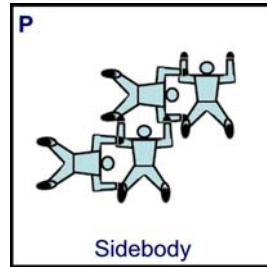

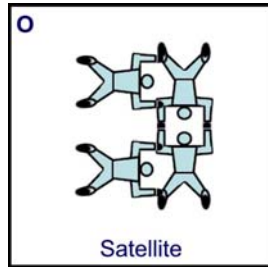

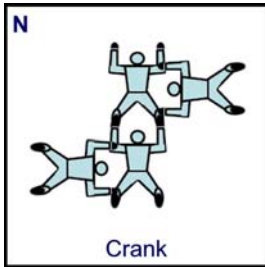

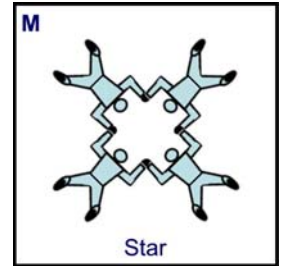

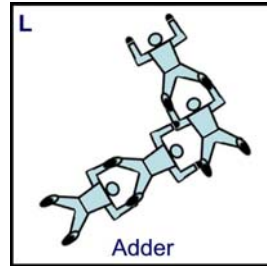

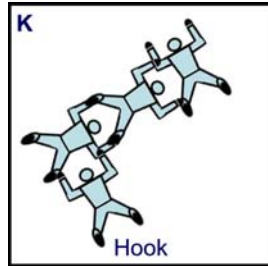

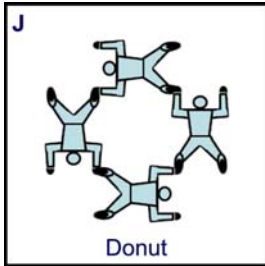

- Es werden maximal 5 Punkte pro Runde gelost. Sofern der Dive-Pool geleert ist, bevor alle 10 Runden sowie die Stechrunde gelost sind, wird aus einem kompletten Lostopf weiter gezogen, aus dem die bereits für die inkomplette Runde geloste Randoms/Blocksequenzen entfernt wurden.
- Die Arbeitszeit von 35 Sekunden beginnt mit dem Exit.
- Im Gegensatz zu der Einsteiger-Klasse gibt es keine 5sec-Regel beim Exit, und keine Auswahl an Exit-Formationen.
- Die grundsätzlichen FAI Regeln bleiben bestehen, so zum Beispiel die Strafpunkte für nicht korrekt gezeigte Formationen, fehlende Separation zwischen den Formationen und nicht sichtbare Griffe auf Grund des Videos.
- Natürlich können die Formationen je nach Flugzeugtyp und Sprungverlauf auch in gespiegelter Form geflogen werden.
